

Goodsense 1.5ton Forklift Four Wheel Drive Forklift With ISUZU C240 Diesel Engine

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: goodsense
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: Bare packaging
- Delivery Time: 30-40work days
- Payment Terms: T/T

Product Specification

- Place Of Origin: China
- Brand Name: Goodsense
- Name: Forklift
- Condition: New
- Energy Supply: Reference Introduction
- Advantage: Small Vibration And Noise
- Highlight: **goodsense four wheel forklift,
goodsense four wheel drive forklift,
isuzu four wheel forklift**

Product Description

The 1.5 ton forklift 4 wheel is engine-powered forklift model. Stacked with world class safety features, excellent performance, outstanding productive forces and user friendly ergonomics, it's simply first class. Built GOODSENSE tough and with fabulous reliability, the forklift feature: Operator Presence Sensing safety system and Wide View Mast for excellent visibility.

PRODUCTIVITY

Forks for easier pallet retrieval.

Wide-view Mast offers an incomparable view of the forks in any position

Control levers offers quick, convenient shifting between forward and reverse.

Tight turning radius increases mobility and trafficability in small areas with synchronizing of the steering wheel and angle of rear wheels.

SAFETY

The Operator Presence Sensing (OPS) system helps to prevent accidental movement of the forklift and forks when the operator is not seated at the controls. The OPS system senses if the operator is properly seated and at the controls by means of the seat switch. When the operator is properly seated at the controls the seat switch will go "on".

If the operator is not seated at the controls the seat switch will turn "off", and the OPS system will disable the ability to lower the forks, or tilt forward or back along with all the other loading and unloading movements.

PERFORMANCE

ISUZU C240 Diesel Engine's 4 point floating mounting system reduces engine noise.

GOODSENSE's hydraulic system help lower engine noise and reduce maintenance cost.

Empty load travel speed 15km/h can protect driver and forklift safety.

Increased structural thickness improves chassis stiffness and extends service life.

COMFORT/ERGONOMICS

Ergonomically-mounted hydraulic controls allow for pleasant "eyes forward" operation.

Adjustable, very comfortable Operator Suspension seat with exclusive lumbar support for comfort and protection

Capacious operator compartment with wider foot area helps reduce operator tiredness when he is driving the 1.5 ton forklift 4 wheel.

The design of the forklift is focused on improving the forward, downward, and upward operator's visibility. The lower instrument panel, the relocated display screen, adjustment of the mast width and other factors ensure marked forward visibility on the forklift.

EASE OF USE

Integrated monitoring system for quicker, easier troubleshooting diagnosis and servicing.

Easy-lift engine hood with wide-access design and gas spring provide quick access to the engine.

No-tool floorboard removes in seconds for quicker servicing.

1. Air intake system

Cover on the overhead guard is placed very high to prevent particles from getting into the engine.

2. Steering system

Cast steel steering bridge is more stable and reliable.

3. Chassis

High strength steel chassis has good driving stability and safety.

4. Right hand lever

Right-hand hydraulic control handle can make operators more comfortable.

Higher Ground clearance 135mm

Slippery floor mat

Right - set storage box

Iron Engine cover, can be fixed

It makes operators feel more comfortable driving and operation is more convenient.

5. Overhead guard

The overhead guard is made of high strength steel sheet, which provides more safety for the operators.

6. Foot plate

The split and embedded foot plate can provide great operation space for after-sales maintenance.

7. Cabin

Enclosed cabin can add fan, heater and air conditioner.

Fan and air conditioner can be used in hot weather.

Heater can be used in cold weather.

8. Hydraulic oil

Famous SHELL Brand Hydraulic oil's excellent wear resistance can ensure long-term and stable operation of pump.

9. Engine cover

The iron engine cover can adjust to 70° to easy and quick maintenance and repair when the 1.5 ton forklift 4 wheel goes wrong.

WHY CHOOSE GOODSENSE FORKLIFT?

1. GOODSENSE forklift is experienced in forklift industry starting from Year 2006. GOODSENSE forklift have about 14 years experience.
2. GOODSENSE forklift can manufacture biggest diesel forklift 48ton, biggest side loader forklift 12ton in China.
3. GOODSENSE forklift has a complete product range: 1-48 ton diesel forklift, 1-7 ton petrol/LPG forklift, 3-12 ton side loader forklift, 3-3.5 ton four wheels drive rough terrain forklift, 2-3 ton four wheels drive rough terrain forklift, 3-3.5 ton two wheels drive rough terrain forklift, 1-12 ton electric forklift.
4. GOODSENSE forklift have a lot of dealers in different countries. Dealers can provide local service for customers.
5. GOODSENSE forklift can supply different specifications for customers : different engines, different transmissions, different colors, different tires brands and so on.
6. GOODSENSE forklift has a lot of skilled engineers and workers
7. GOODSENSE forklift is using Japan FANUC welding robots to weld chassis and mast
8. GOODSENSE forklift use different famous brand painting:Korea KCC, Japan Nippon, U.S.A. Sherwin Williams
9. GOODSENSE forklift has passed ISO9001:2015 and ISO14001:2015 environmental management system
10. GOODSENSE forklift has passed CE certificate and North America EPA emission certificate
11. GOODSENSE forklift use a lot of imported materials, such engines, transmissions, axles, hydraulic systems, seats, finger control, valve

Application Area:

1. Warehouse
2. Port
3. Factory
4. Distribution Center
5. Logistics
6. Retail/wholesale
7. Food/beverages
8. Automotive
9. Chemical industry/pharma
